

Charging Policy 2017

There are no compulsory charges for the usual curricular activities at the school.

For some activities, such as off-site visits or after-school enrichment clubs, the school asks for a voluntary financial contribution in order for the activity to take place. In such circumstances, parents receiving income support or family credit will have the cost of the activity subsidised by the school. No child will be excluded from an activity because the parents have not made a voluntary contribution. However, the school may have to cancel planned events if there is insufficient financial support.

Some of the music tuition which takes place during the school day is paid for by the parents direct to the tutor and is not covered by voluntary contributions.

ANNUAL CONTRIBUTION

An annual voluntary donation of £20 is requested to help meet the costs of extra activities such as cooking, needlework, visiting speakers or theatrical groups and Key Stage celebration/ enrichment days. There is no obligation to make such donations and no child will be omitted from any such activity, but without substantial parental support such activities could not continue.

Policy issued: September 2017

To be reviewed: July 2019
