# Team Invicta for 2029!

## Welcome to Invicta

We are delighted to welcome you to Invicta Grammar School.

We value the importance of a smooth transition from primary to secondary school. We therefore spend a lot of time enabling your daughter to feel at home quickly; to settle into our academic and social environment and feel part of the Invicta community.

Invicta has an excellent induction programme which includes a whole variety of activities ranging from student visits, Year 5 and Year 6 workshops, parent meetings, interviews, visits to primary schools and team building days. We have listed our Year 6 Transition Timetable within this booklet to assist you with planning this important stage of your daughter's education.

### Why Invicta Transition works!

Moving to a new school can be a bit daunting and at the same time exciting.

The girls who join us in September 2022 will be our Class of 2029, when they complete their studies. To prepare them to be our Class of 2029, we have developed a number of Year 6 Transition Workshops. We would like to invite your daughter to a selection of these Team Invicta related sessions. Students who have participated in these workshops in the past, have found the transition to becoming a student much more straightforward. We consider these to be the first lessons that our students have with us! They will promote your daughter's confidence and team building skills. Students have the opportunity to experience teaching and learning at Key Stage 3, whilst making new friends and enjoying themselves. If you would like your daughter to attend, please book via our [online booking system](#). We anticipate a lot of interest, so ask that you select just **two** workshops for your daughter to attend.

Each workshop will link the Invicta Core Values with key skills to aid your daughter in her learning. We hope that by the time students enter Year 7 they have frequently visited the school; each time familiarising themselves with the staff, students and the school environment. This will make their transition so much easier and happier!
