

Our Vision

SEPTEMBER 2016

Our Vision

We inspire families in and around Allington and Barming to thrive and lead fulfilling lives.

As a Multi-Academy Trust we currently support two schools on this journey.

Our schools act as beacons of learning – for children and adults alike - **INSPIRING** self-development and **NURTURING** growth with bucket-loads of fun and enjoyment (**HAPPINESS**) along the way.

We have an incredibly strong sense of **TOGETHERNESS**. We all pull together as staff, parents, governors, relatives and members of the local community, to nurture a truly **CREATIVE** and supportive learning environment for our children to thrive.

Our focus is on developing the whole child, giving them the best possible chance of realising their true potential. We support our children in being healthy and happy, with a keen sense of who they are and where they might go in life.

As we grow we are only looking to partner with a handful of schools that are local to Allington and Barming. This is a conscious decision to ensure we maintain our unique family and community feel.

Our Way

We have a clear vision and a unique way of approaching life in our schools. Our success and outstanding track record is centred around our five core values that we hold dear.

Nurture – taking care of our children and believing in their potential

Inspiration – stimulating dreams, ambitions and positive actions

Happiness – having fun, taking learning seriously but not ourselves

Creativity – finding new and better ways to engage ourselves and the children

Togetherness – children, staff, parents, governors and the local community all pulling together as one

Our values act as a compass. They help us navigate the big decisions and guide our everyday actions - throughout the good and the tough times. They are a key part of our DNA and help all those connected to the school know what is expected of them and what they can expect of us.

What we're ultimately going for...

- Children that are happy, confident and have a sense of where they are going in life and how they will get there.
- Staff that feel valued, happy and inspired to work as part of our academies with the kudos and rewards that it brings to their work and home life. They feel a strong sense of wellbeing – both towards themselves and their colleagues.
- We have the latest resources and are full equipped to inspire others to use them to their full potential in our increasingly digital world.
- We have developed our resources and assets to benefit families in our communities, to thrive and lead fulfilling lives. Examples include nurseries, pre and post school clubs, as well as adult education and leisure activities such as keep fit and family orientated events.
- A 'community of practice' - pooling resources, knowledge and experience to ensure parents and our local community thrive from a set of outstanding schools.
